

PROJECT SPOTLIGHT:

ELK GROVE ANIMAL SHELTER

ELK GROVE, CA

Opened in October 2019, 7 years after it was originally envisioned, this shelter is designed to provide a warm atmosphere for 65 dogs, 55 cats, and other small animals. As the facility is heavily trafficked and requires frequent cleaning, metal was an obvious choice to reduce Operations & Maintenance budget impacts.

AEP Span's Nu-Wave® Corrugated was chosen for the siding, Design Span® *hp* for roofing, and Prestige Series® for the soffits to add visual interest, durability and for cost-effectiveness from both an environmental and capital cost perspective. This bright, modern color scheme blends well with the mixed-use of wood and brick to create a dramatic, contemporary design.

Architect: Eric Whole and Carolyn Natividad, LDA Partners

General Contractor: Robert E Boyer, Inc.
