

PROJECT SPOTLIGHT: SHELTON FAMILY YMCA SHELTON, WA

Located in the South Basin of the Puget Sound resides this vibrant, state-of-the-art, healthy living facility. Run as a nonprofit organization, the YMCA is dedicated to strengthening the local community through youth development, healthy living, and social responsibility.

The spacious facility includes pools, gyms, sports courts, and educational areas and an engaging façade featuring AEP Span's Box Rib® Metal Siding in a vertical application. The color selected for this project is our Ironstone finish from our Eternal Collection. With its unique depth and dynamic light interaction, Ironstone provides a warm, contemporary color that complements wood and concrete materials and contrasts other metal elements. Its robust FEVE coating is a building manager's dream, with outstanding durability, graffiti resistance, and low long-term maintenance requirements.

Architect: Williams Architecture

Installer: Bahnmilller Construction, Inc
