

# PROJECT SPOTLIGHT:

## SKOKOMISH COMMUNITY CENTER

SKOKOMISH, WA

Designed to provide a safe and welcoming environment to the Twana community, this distinctive net-zero structure incorporates a gathering space, commercial kitchen, education space and a gymnasium. AEP Span's Span-Lok *hp* metal roof panel in Colonial Red contrasts with the wood siding to provide a captivating, staunch structure that integrates with its surrounding wooded environment. The lean-to style roof incorporates the extensive use of solar panels while also allowing the crisp, clean lines of the standing roof to be on prominent display.

**Architect:** 7 Directions

**Customer:** Miller Sheet Metal
