

PROJECT SPOTLIGHT: 'BLACK MAGIC' PRIVATE RESIDENCE

ASPEN, CO

Nestled in the picturesque mountainside close to Aspen, Colorado, sits this stunning, modern single-family home. Appropriately called 'Black Magic', the home features an open floor plan and large windows of varying sizes to maximize the breathtaking views of this unique location.

Seeking to make a bold statement from its heavily wooded lot and earthy surroundings, the home features the extensive use of AEP Span's metal cladding in Matte Black. Nu-Wave Corrugated® metal siding panels add texture and visual appeal to the large squared surfaces, while also providing strength and resistance against the harsh Colorado winters. The use of Matte Black Flush Panels were used for accent pieces, adding additional visual distinction to the structure.

Contractor: Rowland+Broughton Design Build
